STATEMENT OF SUBSTANCE OF EXAMINER INTERVIEW

Sir:

This is filed in response to the Telephone Interview held on September 16, 2004 (mailed September 21, 2004) with Examiner Ly. Applicants thank the examiner for the courtesy of the telephone interview with Amy DeCloux. The following points were discussed in this interview:

1. Claim 3 was cancelled. Claims 1, 2 and 4 were allowed.
2. The examiner said he would either:
 - a) send a Quayle requiring a SEQ ID for "CXXC-X12-CXXC"; or
 - b) prepare an examiner's amendment amending the specification to delete this motif sequence "CXXC-X12-CXXC".

The specific amendment he suggested concerns the following two sentences;

"S14 contains a zinc ion coordinated by four cysteines from a CXXC-X12-CXXC motif. This motif is structurally similar to that found in the first zinc finger in the glucocorticoid receptor".

The examiner suggested deleting "CXXC-X12-CXXC" and fusing the two sentences as follows:

"S14 contains a zinc ion coordinated by four cysteines from a motif which is structurally similar to that found in the first zinc finger in the glucocorticoid receptor".

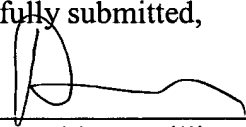

We asked the examiner to send us a quayle and not to prepare an examiner's amendment amending the spec to delete this motif sequence "CXXC-X12-CXXC".

It is believed that no fees are due. However, if overlooked, the Commissioner for Patents is hereby authorized to charge all fees in the total amount to Deposit Account 16-0085, Reference No. 22620/2002.

Respectfully submitted,

Date:

10/19/04
